

Setup Forms / Data

The screenshot shows a web application interface for payroll management. A modal window titled "Generate Form / Data" is open, displaying a list of form types to select. The background interface includes a sidebar with navigation options like "Overview", "Employee", "Calendar", "Bulletin", "Payroll Transaction", "Payroll Component", "Government Scheme", "Resource Data", and "Reporting". The main content area shows fields for "Date" (30/06/2026), "Description" (Process Payroll), and "Process Period" (01/06/2026 - 30/06/2026). Below these are "Processes" and "Payroll Processing Type" (Month End) sections, each containing a grid of toggle switches for various payroll components like wages, bonuses, overtime, allowances, deductions, commissions, advances, claims, and director fees. A "Save Changes" button is at the bottom of the main interface.
